First and foremost, 3cr proudly broadcasts from the lands of the Wurundjeri people of the Kulin nations and we pay respects to elders past present, and emerging hello to any Aboriginal and Torres Strait Islander people including First Nations people all over planet Earth and if you are listening in and we acknowledge that all the lands on this continent and some surrounding Islands were stolen and never ceded.. And that reconciliation is an ongoing process in which we all need to play a part. Well, it's a **huge** show today. In my best feminine Darrell Eastlake voice because it is radiothon 61394198377. 3 CR needs your support to keep Community strong and we really need your support out of the pan has a target of fourteen hundred and fifty dollars to achieve. And if there's want to get in touch with the show in terms of the content, you can email out of the pan 855 at gmail.com SMS 6, 1 4, 5 6, 7 5, 1215 tweet at sal gold said so and that's the bottom line and look for posts on Facebook. My page Sally Goldner AM and out of the pan 3cr 855 in Melbourne, any opinions I express on the show I my own, don't think there may be some content warnings so if we need to give out those numbers on some other issues, we'll talk about them. But I am joined. It's making this such a big, big show, my first, in studio guests, for almost a year, and I can't think of anyone better to have in the studio on radio. Van de Allison Thorn from radical women, Freedom, Socialist Party, lovely to have you with m .on radiothon day on three in the three, see our Studios, and Sally, how fabulous it is to be here as your first first post, pandemic

Studio guests and to be here on radiothon to be helping out of the pan. Bring in those much needed dollars to keep 3cr on air and to keep our community strong, it's awesome. Totally unrehearsed people.

Holden has, I was just going to say yeah, you keep your community strong, you do so much for the things that matter to you. And there's so much Crossover with 3 CR and here we are in the anniversary of Stonewall month which I'm going to call it that although it's you know, pride month, I'd rather call it anniversary of Stonewall month and that's why. It's so a certain Warner Brothers cartoon character would say they're indicative that you're here today to talk about an event that you have next Sunday afternoon at four pm call.

Old lgbtqa+ oppression and resistance across Africa, do tell. Well, it is going to be a fabulous event Sally. And while I'm the first in studio guest here today, this is the first in-person event that radical women and freedom. Socialist Party is hosting at solidarity Salon this year and we are celebrating

King, the 53rd anniversary of the Stonewall riots, that sparked, the modern Gay Liberation movement, and it's going to be a really, really fascinating. And awesome discussion about lgbtiq, A+, oppression and resistance across Africa. The, the chair is the wonderful Georgie Hoadley from radical

All women. And I'm going to be sharing a panel with Nita. A cocoa Nita is from Kenya and has been collaborating with queer community members there. So it's going to be very insightful discussion. Well, absolutely, excuse me, I'm sorry. Frog in the throat Georgie hopefully, I mean, talking about morka keeping communities, strong is also a member of retail and fast-food workers, union, and neat, has a member of the cpsu. As

Yes, someone who's involved in that and I mean all keeping Community strong. So there's lots of intersections there but perhaps give us a teaser about what is happening in Africa and what the sort of things might be, that could be discussed. Mmm, well my presentation is actually going to be focusing on two countries, plus a continental overview and the two countries that I'm talking about South Africa and Uganda

De and South Africa is one of the countries where, on paper, at least rights are most advanced in fact discrimination against queers is outlawed and that's something that's actually entrenched in the post-apartheid Constitution. Yep. So some great rights on paper in South Africa, but still some huge issues with violence hate crime.

Action. They will. Of course, though be having huge Pride, marches taking place right across South Africa this month, but on the other end of the spectrum, we have Uganda where the community there is fighting very repressive anti anti gay anti-trans legislation, which the Government tried to Ram through,

First in 2014, it was overturned on a technicality and they're trying to put it through again. Now if carried that legislation in, Uganda could open the way for the death penalty and also would criminalize advocacy of lgbtiq plus rights. So standing with the queer community in Uganda is

Very, very important but I think the most interesting aspect that we're really going to be diving into is where did homophobia and transphobia come from and some of the more conservative leaders in Africa, argue that homosexuality. And any transgression of the gender binary is unafraid.

In. But what we're going to be showing is that that is complete BS because it was the colonizers who imported these things into the continent and we'll be talking about what some of the amazing pre-colonization Piri private property societies were like, where there was no, rigid gender binary or to boo on same-sex

X sexuality will look absolutely in this is why, you know, we need to have these debates that are to tell people that, hey, here's where you can go and learn about them on 3 CR and why you need to support out of the pans. Radiothon show on 94 1983, double seven. We've got a target of \$1400, you can SMS 0488, 09 8255 those vital numbers and Anton from Glen Waverley is got us underway with \$50 and we've hopefully have more coming in on the wire very soon.

How fantastic, they like Anton. Give give give. Absolutely. We need to keep these voices on air so we can support other voices because the sort of thing you were talking about there. Sometimes gets squashed and of course, I think I need to acknowledge the

parallels that have happened on this continent and surrounding islands where we have so many cultures that are Way Beyond the and I'm like deliberately say, Western gender binary, you know, it's and whilst I acknowledge totally these cultures are their unique, only a sister girls and brother,

The boys and Falcone and many many others in South Asia that he shh you know, these things were squashed by a combination of colonialism, gender binaries, massagin ISM. The whole thing and misogyny is, MM, seems to play sadly strong part with the issues in South Africa, that are means that strong constitution on paper. Probably isn't being achieved on a day-to-day basis for people's lives. So we need to keep talking about this. So this is a really important point that you're making that these things.

I came from a bad, they're not an African at all. That's just very twisted.

It is it is it's it's absolutely twisted and that is why we do need radio stations like 3cr where we can be talking about these issues where we can be getting out analysis and ideas that we wouldn't hear in the mainstream and where we can actually be proud proud Advocates and what we will be advocating for.

Our event. Next Sunday is a society where sexism homophobia and transphobia no longer exists and a society where racism which was invented later but also to support an economic system no longer exists as well. Well absolutely all these things you know disability phone

Phobia, sex, worker phobia, they all need to go. And we just I mean it sounds I'm sometimes it's the next two statements. I'm going to make might sound so basic. Treat people with respect, you know, for who they are and treat them on their merits. And I just I I know this sounds almost Pollyanna but I don't understand why people would want to put down anyone just because they're from a certain group, whether it's women or trans or anything else and you know we just need to keep putting out the positive message, it was an interest in just

I got to the station, I got the update alasdair Lori, who in my opinion is Australia's. Premier queer blogger, who last week, put out on. I think this is something we need to do remind ourselves that the last nine years have been the worst of times all these put

out the second part in his article. He's called it the best of times, what would could we get cracking on and hopefully achieve in the next 3 years? Now, we've had a change of government and Irene that up because yes, we've had horrible times here in Australia by our standards in the last nine years. But you think about what people are facing with the

These aren't going to as they needed to in South Africa and worst in Uganda and many other places. We think of, you know, say trans women in the Ukraine who are stuck with the name on the birth certificate and can't get out. And may be forced to join Armed Forces, all those sorts of things, and no one should be forced to join Armed Forces against their will all these sorts of things are the things that we need to discuss. And thank you, to two people who are supporting our discussions and Stephen from Thornbury. Who's

\$100 and James. Mackenzie. Queer solidarity in your face. Who did a great job with their radiothon target on Friday. He's putting \$10 to us as well. So we need more. That makes it that we're now over 10 percent of the way there, but we've got another 90 percent to get, queer, listeners, and Allied listeners. So please support us but I think it's great that you have these discussions because now, yes, sometimes and it's fair, you can't support other people. If you're struggling too much yourself.

But if we have some strengths which people like yourselves and freedom Socialist Party, radical women have in the freedom to communicate to get these issues out there so we can feel more connected in this world. When there are people quit people in this case, it was struggling more than ourselves and obviously intersections. You know it's really important to have the discussions. It is, it's so important and it's so important that we actually have Independent Media that we have media, that can take a stance.

Take a side proudly proudly. So and that's one of the things that I love about 3 CR and it's one of the things that I also love about the Publications that we're fundraising for next Sunday, the freedom, socialist and freedom. Socialist organizer there from a proudly revolutionary, feminist perspective, and we say that,

It telling stories, you know that you would hear in a few other places. And I think that that's one of the things that we very much have in common with 3cr that we need to be

getting the word out that Independent Media, those stories that would otherwise get squashed. And I think that, that is something really worth donating to. So, I urge

Everybody who is listening to get on the phone, 94 1983, double seven. And give give to the 3cr radiothon support, the out of the pan Target and help keep Community strong. Absolutely. Please do that. We've got to get that Target of fourteen hundred dollars. You can also SMS your Pledge on 04, double eight, eight zero nine. Eight five five and we'll just have a message.

3ci 855 am 3 c r dot org dot U 3 CR and demand 3cr digital out of the pan with Sally and in-studio guest on the 800th. Show, Allison Thorn Allison. We were discussing why we listened with my tongue in my cheek anyway to Bob Seger's, UMC, upper middle class. And we opened up today with the angels stand up. And we need people to well, be counted as part of standing up and Juliet's in with this, in the metaphorical sense of standing up.

And it's donated \$20, but we need more to get to our Target of 1400, whole heap of linkage linkage tactics. I mean, you're having your Africa discussion because, of course, it's the anniversary of the Stonewall riots and we wanted to start there and then sort of Link in a few other things. So your first up, your thoughts on Stonewall, you know, where it started and where we are today. But anything you want really? Yeah well look Sally, I think that it's really important that we

Don't forget where pride month came from pride month. Came from the Stonewall riots and I had the opportunity last week to speak to a group of young quiz from the retail and fast-food Workers Union. Queer caucus about Stonewall and these young workers were very inspired because they didn't know

A whole heap about this history and what was important. So important about Stonewall was that the, the patrons at the Stonewall Inn said enough enough. We are not going to put up with this persistent police harassment anymore. They took to the streets. They rebelled, they rioted, they rioted over two nights but

That Defiance that determination to not cop. The police abuse anymore was something that started the modern Gay Liberation movement and the Gay Liberation movement sparked by Stonewall, was not simply a movement. That was asking for some queers to have equality within an unequal system.

What Gay Liberation was all about was Liberation for every lgbtiq, A+ person for every aspect of their life and that is something that I think is very inspiring and it's something that we need to keep fighting for the other thing that's so crucial about.

Stonewall is thinking about where the leadership came from. It came from Young Working Class. People of color, it came from amazing trans women of color from Sylvia Rivera from Marcia, P Johnson, just like incredible leaders who

Had a real vision and what I'm Keen for us to be doing, is to be continuing that Vision in the 21st century and when we celebrate Stonewall, that's what we're doing. Look, absolutely, absolutely. So many things there and I mean, totally knowledge in the privilege that I have is white, non-aboriginal, and I don't use these words myself, but I'll say Anglo-Saxon and middle-class passing which, which is why.

You know, self-deprecating leave quite a lot of salt last song, because, you know, I think that my concern is, there's a worry that there's now this inequity and inequality within lgbtiq a plus and difficult topic. And this is where I met just because it did involve outing and that content note there. And so, remember that switchboard is there on one eight hundred five, four EPS part of Q Life on 1, 800, 1845 27, rainbow door, one 879

367. I mean and we're media here the whole Rebel Wilson situation that sort of evolved just one sort of mainly evolved after last week's shown up there for, haven't had a chance to discuss. I mean, I just felt. That was really sad. That a gay man. Who's assimilated into mainstream media. The gossip columnist from that paper out at another queer person in that way or wanted to, and, you know, well done for to Rebel Wilson, forget something, I think is the word that they used and getting in ahead.

But I just I feel very disappointed that that's the case and I just want Curious to hear your thoughts on that on so many angles. Yeah, I mean I agree Sally. It is disappointing. And it's a real reminder that simply being a member of the lgbtiq. A plus Community is not in and of itself enough you you have to

To be Progressive in in your views, you have to understand solidarity. You have to be radical and without that it can be a real slippery slope. Yeah, well, that, that is, that is

the thing that we do need, you know, sort of, you know, we often ask in the I'll say the all of LGBT, okay?

Plus 4 L, I ship from people who will say to the best of their knowledge, are none of those things but it's also about allyship across and within the communities, how we keep trying as much as we can to lift each other up, which is challenging. When we have all, you know, I'm going to say 99% of, you know, sort of queer people at least have faced some degree of negativity, because of being who we are and and but we've also, we've got to keep trying to do better, and this is my huge frustration.

Raishin we're not. Do you know, we don't do that and that the I'm being a little stereotypical here, middle class, sis gays, and lesbians are not sort of bringing other people along which I feel very disturbed about that. Those sorts of things are happening. And, you know, we need a range of voices and one of our, as I always say 3cr, including out of the pan, doesn't have regular listeners, we have awesome listeners. Hoffler has come in and said, we need, you know, and should see and hear more.

People of color on radio in queer circles. And, you know, I think that we do need that. And I know there's lots of good programs on 3cr with queer announces, and we need that range of views to keep us thinking, and it is now official, not that I have to say not that, I didn't already radical women. Thank you for your support of out of the pan for popping in \$20 to our radiothon. We because we've now at 200 of our 1400. So thank you.

For your support that's keeping Community strong and showing that sort of progressive solidarity and lifting each other up. So you know absolute thank you for that. But you know it is wiring but it also I just, you know, I story that started out bad in the last week in the other, but it's now turned good. If you're willing to comment, is the situation within the greens, which has been broke throughout the week on Linda Gail, who had in the past had made what trans people, and it's up to trans people to Define transphobia.

Of course, transphobic remarks and the election was not considered proper and has now been removed, but she's been urged not to renominate and stand again. And I think it's really good. That the greens who I was, you know, I'm trying to be, it's always hard to be objective when you've got Janet rice, then an out by parliamentarian and

there's a someone who has suffered from buyer Asia. You know, I think there's lots of good in the greens but interestingly, there was a conversation on another radio station yesterday about

You know, these double standards in Progressive circles, you know? But the greens have done the right thing and by having a proper election and now that everything's clear and then there's transparency about Linda's views that won't happen. But I'm curious to your thoughts as to that whole situation if you have any. Well I think it's really important that all political organizations

I just oh look, I I mean, I don't know a lot about the situation with in the greens but I don't think that any organization that claims to be a progressive organization should be having anybody in.

He kind of leadership role, who puts forward views that are transphobic or any other kind of Oppression, you know, like views that are racist, you know, or views that disrespect people with disabilities.

What we need to be doing with an in organizations, is we need to be walking our talk. And I know that as a member of both Freedom Socialist Party and radical women that every single one of our members before they can join either organization, they

Need to fully understand and fully support our political program. And every one of our members is a queer liberationist, every one of our members fights transphobia every one of our members, whatever their gender is a feminist is anti-racist and I think that that is something that's enormously important.

Absolutely, you've now gone right on the bullseye that, you know, we wouldn't tolerate and I'll use this one from my own identity. If a progressive inclusive organization, had some anti-semitic views as someone of progressive, secular Jewish background. But even if I was Orthodox, wouldn't make any difference not on and, you know, I mean, the interesting thing was a brand-new, this might be an interesting comparison, but I remember a few years ago, the there was some apparently neo-Nazi.

Crashing of the Nationals in New South Wales and they did the right thing and got them out. Now if they can do it, the cranes can get out the transphobes. So I think it's really important thanks to Damien for donating \$30 to our radiothon program for 2022 in my best. Richie, benaud voice. Why did that? I don't know. But I just felt like it and remember to donate 994 1983, double seven or if you're outside of this continent, six 1394

and unaware of the environment that I was go into was quite challenging of my sexuality, or my preference, or becoming transgender e'en, seeing the Public's perception, and how they would accept.

Me as a transgender providing this government information which was a very, very important aspect in our lives to be vaccinated or those who chose not to. So I was very caution of my appearance, very caution of my treatment and very you know, aware and just sort of scope in my environment to make sure it was safe for me to approach. So can I just ask you, did you come across many of our

Pacifica Community for your job and the rural areas of Melbourne. Yes, for me personally, it was so overwhelming and great to reach out and to connect with my own culture as well as for than the transgender and to support them and to give them the understandings of the benefits and the risks behind the vaccinations and a testing, which I kind of have that natural connection where they appreciate it and very grateful for our engagement.

Hmm, as things are phasing out, where can people go to to get information about covert testing or the vaccination. I would highly recommend that you can speak to your GP and just you know ask the questions about your eligibility. Pharmacists are also doing flu vaccinations and covid. Jury my presence and my future on anything medical to get my information about future vaccinations testings. Crowded and imprisonment of First Nations people particularly First, Nations women and mothers is something that's absolutely going through the roof. So very much invite

people to get behind that campaign drop in to solidarity salon and support our massive pride month sale. And
