Panoply panorama panpipe pansy aha pansexual: knowing no boundaries of sex or gender, sound interesting? Then join Sally on Sundays at noon for out of the pan. All those gender questions making you think too hard? Whether it's transgender bisexual polyamorous or beyond will throw those questions into the pan and cook up the answers for you. So go on push that gender envelope. Only on 3 CR 855 am digital and 3 CR dot org Dot au.

3 CR 855 am 3 CR Digital 3 CR dot org dot a u and 3 CR on demand Out of the Pan with Sally first broadcasting noon through one every Sunday afternoon. Thanks for your company. 3 CR proudly broadcasts from the lands of the Kulin Nations at the overlap of the Wurundjeri and Bunnerong peoples. And we pay respects to elders past and present. Hello to any Aboriginal and Torres Strait Islander people tuning in and acknowledge that all the lands were stolen and never ceded. I'm Sally Goldner. I use the pronouns she and her and this is Out of the Pan or show covering pansexual issues knowing no boundaries of sex or gender and today there's going to be some music which is pan music because will be knowing no, boundaries of sex, gender or genre, as well.

Lots of ways to get in touch with the program. The you can do that by emailing outofthepan855, at gmail.com, you can SMS six, one, four, five, six, seven, five 1215. You can tweet, Instagram and mastodon at salgoldsaidso and that's the bottom line. And look for posts on Facebook, on my page, Sally Goldner AM and Out of the Pan 3 CR 855 AM Melbourne, remember any opinions expressed on the program are my own and not those of any organization with which I am or have been associated. Lots of things going on in the queer community today. We'll have a look at how the Netherlands which often is a leader on queer thinking and human rights has done some good work on by issues, which is well needed. And also we will catch up on all the news of the week. But what I wanted to start off with today is that the Australian human rights awards are open for nominations at the moment in all categories, in a whole range of categories as per the Facebook and social media posts. And I was just it, got I have to give credit where it is due. No play ...Plagiarizing or plagiarizing. You can email message in and tell me about that as well. If you like this train human rights, awards are open and I was just thanks to Kayleen one of our awesome listeners. Remember 3 CR, only has awesome listeners, not regular listeners, she made the suggestion to me during the week, who would you nominate? Whether it's queer, which is a focus of this program or more broadly for an Australian human rights medal.

Remember we are talking so called Australia here, there's and want to say human rights medal. There are five categories of these Awards. There is the human rights medal. There's a law reward, there's a media and creative Industries award. There's a community award and a young people's award. So these are all categories. So I'd be interested to hear your thoughts, who might it be? Could it be someone like, declaring my interest as a Committee Member of just

Equal Australia. And the following person is an advisor to just equal Australian Alastair Lori, who writes a great, human rights and law blog at alasdair lore'l, a wri e.com there. Isn't that was a total brainstorm coffee has kicked in thank heavens for that media and creative Industries. Well declaring all possible bias immediate reward for pics funny one of the new programs and that focuses on quiz on.

Seattle, rainbows don't Fade with age. Now, these are the, these are the sort of possibilities. It's these sorts of things that are sort of, you know, don't often get recognized in these ways. So, there's all sorts of possibilities. Really love to hear people's thoughts about this and what sort of

ideas you might have. So there's lots of good work and I mean in a way I is it you know, is it an argument to say

Hey people like Grace time and Brittany Higgins have had you know in a way fought for human rights because they're fighting for the rights of women through the work that they do all the stories that they tell those sorts of things. So be could be a little well, creative to use the word, the word. And one of the titles of these Awards and see what you think. Lots of good people doing, lots of amazing stuff and that's always a good thing. So, yeah, love to have your

What's some people? Remember once, someone said or do we need queer Community Awards and someone said, no, because, you know, that it doesn't favor. It means some people miss out. I'm not sure about that. It's, you know, you don't set out if you truly care about Community to get Awards. You set out to do it because, you know, you care, but it can be challenging work, been there, done that got a few, emotional scars or something and

From my point of view, the thing is that comes up is that, you know, it is important to recognize people, you know, it's nice to get recognition, you know, you don't set out for it, but that sort of all the more reason to enjoy it when you get it. And when you are doing work, that is sometimes challenging and thankless and often volunteer based as well, it can be really, really difficult.

To keep going and award can be a great booster to yourself to just sort of get, keep it, keep it Rolling Along, keep breaking, new boundaries, all those sorts of things. So really important that we give people that recognition and terms of what they do. Let's have some music while you ponder that some think music do do do then, it don't do no, not that sort of music. Keep

Being the pan genre theme going, we opened up with some laid-back, music from John Schumann from his album etched in blue and although the track was called Thunder Across The Reef, which was dedicated to out of the blue diving deep for marine use, or staying on the surface. This time talking about wind farms and birds and I, this is what I love about 3 CR that there's an angle that you probably don't get to hear about in a lot of other debate. And yet, here's the James fan, out of the out of the blue on to it as they always are. And that was a great.

From John Schumann's, first solo album in 1987 etched in blue. Definitely our 14 out of the blue and well that was all sort of cool. I do laid-back sort of rock, whatever you from a variety of very varied. Album is someone who can probably fit a little more in the blue. Genre, one of my favorites, and this is Diana Wolfe in the Wolfe gang from their what's Cookin album of 2005.

I've doing a cover of a song by Eric Bibb, it's called too much stuff. We can all end up with that 3. CR 855 am 3 CR dot org dot a. You 3 CR Digital 3 CR on demand out of the pan with Sally

Councils around the country will put on just disability Day events and quite a few of them will not include people of color first Nations people and black people. So I think it's pretty cool. That everyone you'll hear on air today will be a person of color and the majority of them will be people with disabilities as well. I think, when you have to preparing for the show and for this day, we wanted to talk about how we could explain the concept of power from the margins.

And why it is that we've chosen to focus on black people indigenous people and people of color and I think you know in one word it's intersectionality it's the fact that people experience forms of Oppression different forms of Oppression of the same time and most people don't realize that

you can't have racial Justice without disability Justice and vice versa. We need to keep radical voices on air.

Thanks for your company and you heard prior to the two, very important messages showing areas of the community, who are trying to battle for equality, equity and Justice. You heard from the

Wolfgang. And a cover of a track written by by Eric Bib and Dave bronze called too much stuff. From The Fabulous album from 2005, the Wolf Gang live at Saint Andrews. Now, you're Cookin and so to speak on out of the pan and that the album was called what's Cookin and totally subconsciously honest. And for true, I realized as I was, of course, listen to that track. There was a wonderful harmonica sort of solo by the

Now, sadly like great Broderick Smith and that seems like a good totally uh non-Australian for True unplanned segue that following out of the pan. 1:00 is freedom of species, talking all things, animal advocacy, and you don't get rid of me that easily. Today at 2:00, I'll be hosting rotations with my tribute to Broderick Smith. John wait, did one back in? May I think it was May the 12th from memory, which you can check out on three. See ours website. But he was just such an amazing amazing. Singer/songwriter, harmonica.

Player musician. And I never got to really meet him, but when I want you, I want you showing so great gig or something, but he just seemed like the Loveless bloke out, and I'm sure he was and gave so much to Australian music. And so, another tribute today, to the great Broderick Smith, one of Australia's great singer songwriters and after much thought I decided I wouldn't play any of the songs that John played. I don't have the stories he played, it's just going to

Packed with broad Smith and dingoes music. Yes trillion might and all tracks on the show today are as strong in as well. So there's a hint for the next three if we get through them all. However, we'll do some news from overseas as the message at the start of the show. The introduction always says whether it's transgender bisexual polyamorous or Beyond. Well, the be doesn't sometimes get enough mention bisexual, Erasure has always been a big issue and wanted to cover this story.

Um, a few weeks ago now, but worth mentioning. And that was on a press release from by plus needle and the first-ever Parliamentary letter on by plus the quality. And so, as per bye-bye, plus nettle and and you'll get the output, the link to this, into the podcast, as well. But if you put search for by plus .n L, you should be able to find this. It says on the 28th of June 20 23 stonewalled. A the house of

Dips received a letter from Minister did graph about the equality of by plus people. It is the first time that this group of about 1 million people who are attracted to more than one gender has received this kind of political attention in the Netherlands and it's a first and there's emphatic and extensive specific attention to the quality of Phi plus people. And the minister is the Minister of Education culture and Science. And and he

He looks at some of the studies he says that by quality the by plus needle and say that this is on the map highlights of the letter include the enormous political recognition of the problems by plus people face. It's become the common term replacing, the less inclusive and narrower term bisexuality, not just expand on that. Now someone who is Pan might not necessarily be think of themselves as by someone who's Omni and then there's all these new terms and that's great.

So I think that's a good reason to use it. The letter describes by plus as an umbrella term under which several terms can fall such as bisexual panel, non monosexual. There is an understanding of by plus fees versus monosexual and bond a sexually attracted to one gender mono. So if you only listen to this from one channel one of your speakers isn't working it's mono and that straight but straight slash heterosexual gay and lesbian and acknowledges. A few things to go.

Go on that Society expects, people are only attracted over the course of their life to one gender so that may buy plus orientation. It says here, quote is often not seen as full-fledged and something temporary and quote content. Small content, notes biphobia. Yeah, the old make up your mind, get off the fence. It's a phase near Minnie. Minnie Minnie Minnie in will today's yada yada yada day. I think from Seinfeld, they say, yeah de yada yada.

83% of by plus people would like their sexual orientation to be taken more seriously. Yeah, I'd agree with that the buyer Asia during the postal survey here in 2017 is still something that sticks in my craw crawl not crore to quote get smart. I think it was and I remember where I'm a few months after the postal survey a prominent so-called queer leader. In this country said, we

Couldn't tell by stories in the postal survey because it was too complicated. Who's we? And who's speaking for whom and why did you were raised by people just forget sake of gays and lesbians MMI, the words of Mike Moore from Frontline. And the minister acknowledged that the combination of unfamiliarity invisibility and diversity amongst by, people can lead to Prejudice and lead to exclusion. Both the straight and lgbtiq plus as it's called in the lens communities, he refers to

Research showing that by plus people, feel at home in the by community and also increasingly in The Wider. Rainbow communities, that's positive and the minister commits to subsidizing by plus Netherlands. So federal state territory governments support your by specific organization to, because we know best, no bias, their biases, cute. Anyway, lack of by plus recognition affects well-being. There's plenty of research on that. And

The bi plus people face due to this discrimination and visibility and Erasure. This piece says research shows, 33% of by plus people are quote psychologically, unhealthy 13% of lesbian gay, 11% of straight, lack of recognition. And acknowledgement experience there's problems at work. Now, it's sort of facing discrimination and harassment and this research going on in the Netherlands, on that little attention to buy Plus in

Shouldn't commit even compared to gay lesbian, they give research on that and the Netherlands is the first country to fund an advocacy organization, specifically, for by plus. Yeah,

there's been some funding declaring my interest to organizations, like bisexual Alliance Victoria and Melbourne, bisect Melbourne, bisexual Network here in Victoria in Australia, but not to my knowledge ever from the federal federal government, and we'll have to fix that.

So, but there's more needed in terms of content, note domestic, intimate, partner violence, which is close to double that of lesbian women and over double, that of heterosexual. Women there needs to be more research and by inclusion in school education as well. So this is a really good initiative. As I say, State territory Federal government's here, take note follows suit yada. Yada yada we needed here and we

It everywhere on planet Earth, all right. It hasn't happened before. That's a very poor segue into the next track by Ian Moss. We're going to have a bit of a jam out here and this is Ian Moss with a track from the 2017. Re-release of matchbook, the 30th Anniversary Edition where there's a lot of tracks on a second CD. Audio Peter Walker and Ian Moss Mastered by Don Bartley and Benchmark. Mastering it all comes together.

We need all of us together in all of the rainbow communities and it was great to see the Netherlands do stuff on by Will much closer to my home. Literally during the week, we had some good news for the a, the asexual Community. The specifically asexual aromantic and agender and that is Tasmania. Hello to anyone. Listening on the Apple, I'll to the south of knob and this story published on Monday morning.

By ABC. Hello, Auntie, ABC, quote, Tasmania is the first state to officially recognize those, who identify as the headline, says, asexual. Adding the a, to lgbtq+. Well, I have to use the obvious 101, pun. This is a case that it is done. The schoolyard in Regional Tasmania, could be a challenging place for ash McCulloch, you know, that's who heard words that well

Content note lesbo phobia and sex will say, asexual, Ace, phobia dike and frigid as insults and it hit hard and then in their 20s, a sexual count Ash came across the term asexual and the broader, a spectrum. And it was hard to start with, because there's a huge societal expectation about relationships, absolutely. That. We went from all you're going to get married and have kids to. Yes, you can be in a domestic hetrosexual, partnership to

K can be a domestic down. There's been partnership to, you can have a married guy that's been partnership and we're kind of getting a little somewhere with by. And so, I totally agree with Ash

there and, you know, sort of bringing a friend to social outings as a significant other was important to Ash, having emotional relationships, take greater presidents over sexual attraction. And you know, this is what happens when you don't get the visibility. It's a great quote here from Ash quote. I thought that in previous

Obvious relationships. It was a problem with the relationship because I wasn't experiencing that attraction end quote. Yeah, well, if you're Ace, you're not going to and so, it's how we Society for owns relationships of all sorts and Ashley, how does stand-up comedy? Yay for that. I am as a one-time stand up, I can appreciate that and says how people at the events that they and they do one. Someone came up and we're basically in tears. Thank you for talking about.

Never had the guts to talked about. This is my comedy referring to other comedians that as people are dismissed by society. And of course, there's lots of people now, sort of the plus is important because non-binary trans people may fit under the tea but not always. So and now plus doesn't validate people. Those as says Sam Watchman who lives in the Tasmanian Regional town.

Of Latrobe. So, sort of and here's a common one. Sam says that there's a barrier in healthcare where a sexual identities are seen as something needing to be fixed. And so, trying to diagnose people, rather than accepting this as their own, I do remember this at a conference. I was at was five years ago, already, we're after presenting. There was a presenter on a sexual research and this was commonplace in healthcare from the qualitative.

Research this, the next presenter gave, so there's more connection now which is great and it was accepted pretty quickly by the Tasmanian government which is well done to test because of course 1997. They were the last of the eight states and /. Territories in so-called Australia to decriminalize, Gay and Lesbian. And now they've left up the ladder. Again of course from a transport. If you Tasmania does have the best birth certificate laws of any state or territory, although

And has now a bit like, you know, the changing League later after a red, one game of football and around Queensland has moved pretty close much up to Second. Overtaking Vic act Northern Territory South Australia. Although what those laws are not quite in force yet so great work done by lots of Advocates over the years in Tasmania, the late great rods Houston, a transwoman Martin Delany and Rodney Croom of course,

Many others. And so this is really welcome. And there's also a follow-up article on this, which I'll also put, I'll put both these into the podcast. Links SBS have this since done follow-up. Follow-up article this morning. So Tasmania. You are, you are awesome. Clap clap, clap clap. Let's have some more music. What are we going to do? Let's I'm having a toss up on which track. What's going to be Australia? Why not?

Well, then we just went a little further south than Victoria. Let's go south in a way with rose tattoo under Southern Stars. Let's rock out. 3 CR 855 am 3 CR Digital 3, CR dot org dot a. You 3 CR on demand out of the pan with Sally
