I'm Sally Goldner; I use the pronouns she and her and this is a show covering pansexual issues knowing no boundaries of sex or gender and sometimes but not always knowing no boundaries of musical genre and we've started off today with some Australian rock, will it continue in that vein you'll have to listen through to 1:00 until Freedom of Species comes on? If you are listening prior, you would have caught the Fab crew from out of the blue diving deep for the marine news as they always do from 11:30 through till noon, every Sunday afternoon, part of the diversity of shows on 3 CR.

To get in touch with this program, you can do it by lots of relatively modern means of communication, the facts isn't working today. Actually, there isn't a fax in the studio or in the building. I don't think. And anyway, you can email out of the pan 855 at gmail.com SMS six, one, four, five, six, seven, five 1215 tweet at salgoldsaidso and that's the bottom line; the same on mastodon and Instagram and look for posts on Facebook on my page, Sally Goldner and Out of the Pan 3 CR 855 am Melbourne. Remember any opinions that I express on the program are strictly my own and not those of any organization with which I've been associated past or present, you can snail mail in. I just won't be able to read it out today live; PO Box 1277 Collingwood 3066.

Could be...I'll just do a general content note warning for today I get to the main topic. I want to discuss in a minute so we'll mention that Q life including switchboard in Victoria and Tasmania 1-800 1845 27 and rainbow door. One eight hundred seven to nine three six seven our numbers to call if needed we opened up today with Paul Kelly and the execution way back from Paul Kelly and the colored girls album gossip as they were called then in 1985 later to be named to be changed to The Messengers and the Brilliance of the combined guitar work on that recording of Paul and Steve Connelly, and the whole crew. Just it's just Paul's musical teamwork with the messengers. And then later on with the band, musicians, he's worked with enhances his amazing songwriting and vocal, and guitar playing.

Some wanted to do a topic today. I try as hard as I can on this program to be more, I'm going to say proactive and talk about things that you know sort of a more what the trans Community wants to talk about. But today I feel I need to be well I'll say a little reactive because but I think it's how we can turn something that's happened. During the week into something positive. Now I almost can't believe that I'm about to talk about this.

However, in one of the stupidest things I've ever heard this week, the relative governing body of world chess chess. You know, 64 squares on the board and 16 pieces each to start with, has banned trans women from playing high-level woman's chest events. Now, I personally believe there is a huge

Sound of overblown nonsense in the argument about where trans women compete in relation to sport. I think that it's needs to be far more on a case-by-case basis and you know sort of whilst it's not my place to comment directly for intersex people variation of sex characteristics. The similar issues are often

brought up, same thing case-by-case, sort of basis. You can't just put trans women and women with variation of sex.

Mystics into one box. Same as you can't put cisgender and Endo six men and women into one box either. Funny about that. Hey why is there a double standard? Oh sorry we've already got two part of the part of this part of the the hypocrisy and even. But let's just be generous and say, if there is a case for physical Sports contact Sports in particular. How on Earth do you ban trans women from

And Chase and I look when I first read these reports as they emerged through the week I was just sitting you know thank goodness. I had a crash helmet on because I did a big head desk and I'm the face palm and all those sorts of things and I will murder we who writes the weekly or puts together the weekly column the on women's events the week in patriarchy, which hits my email box.

Has overnight, as Saturday becomes Sunday, has nailed this brilliantly with, and she's obviously written this with sarcasm, as anyone who has ever played the game of chess knows, chess pieces. Are deceptively heavy enormous hand strength and lung capacity, required to eat move, even a tiny pawn, across-the-board, shifting a rook or queen, that can exhaust a delicate, ladies fingers for our weeks on end, and don't get me started on the spatial intelligence and mental acuity required for chess.

Even thinking about the game makes my poor little woman brain heard, right to our and of course it's nonsense. As she goes on to say and yet I'm I will say content notes, Here, massagin ISM. Bobby, Fischer, well-known chess champion of the 1960s. I think often had matches against the Russians as part of the Cold War much. Oh, propaganda. Funny about that said, he said, quote, women are terrible chest Plaza. Guess they're not. So smart. And here's the huge.

Even bigger content warning. I don't think they should mess into intellectual Affairs. They should keep strictly to the home. Oh, dear 2015, Nigel short, vice, president of World Chess Federation feed. A, if IDE men are hard-wired to be better, chess players than women you have to gracefully accept that old. How patronizingly controlling and mansplaining. Yes. And wait for this one. I'm I mean, I

I'm trying to see take the humor in this, but I'll come to the point of the why I'm saying it. This way in a minute short, then went on to say the English Grandmaster went on to explain. It was clear that men's and women's Brains are different because he helps his get, his wife, get the car out of the garage and she has more emotional intelligence than him.

Oh, dear, and so on. And on it goes, I don't really think I need to say anymore now. Yes, at first I felt disgusted, angry frustrated, and bewildered. I feel very much for Trans people in particular and double particular for trans women who having to listen to this piffle. There's a polite chest, like word, I hope. But then it just made me realize this is the now,

This is the turning point. This is where people will realize this debate is not about protecting cisgender and Endo sex women from trans women that this is nothing more than an extremist ideological charge put out by these people who seem to be against trans. Now, even if and I say again, if there is some sort of argument about contact Sports and Physical Sports to say that every man, and every woman.

His brain is different, that is just total biological Essentials, and there's no physical issue in chess. Of course there isn't. And what I am calling for today is that for Trans people and more importantly than for Trans. People are cisgender allies to start calling out the stupidity of this and saying, this is why these debates are so stupid. This is where we turn it back. People of all genders and all, well, I'll just say all decent people this

Way, this transphobia can be turned around. It doesn't have to go further today. And so, frankly enough is enough. It is Checkmate for transphobes in my opinion. And I also call on our community leaders in a range of areas, politics government, the whole thing to call out the stupidity because this is just this is where you stand with us.

If you can't do it here, you're not a leader and so it is time that this stopped, welcome your thoughts listeners of all genders and so that will exclude any test finding in because apparently they don't have gender because there's no such thing or messaging in. Anyway, welcome your thoughts, what do you think we should do about this? What's the best approach? Would we use it to, you know, sort of

Point out the ultra stupidity of anti-trans arguments of All Sorts, or what do we do? Let's have your thoughts on those, those places. Again, those contact details. Again, out of the pan 855 at gmail.com SMS six, one, four, five, six, seven five 1215 tweet Mastered on Instagram at Sal gold said, so, and that's the bottom line and posts on Facebook, my page Sally.

The struggle is continuing

3 CR. Stay tuned. Stay radically.

That's what we do or is Mark Henry would have said, it's what I do. There's your obligatory wrestling reference today at 23 minutes into the show and the show being out of the pan, a show covering pansexual issues knowing no boundaries of sex or gender today. Not so much don't know we just heard from Dire Straits from their second album, communicate single-handed sailor that album probably the most underrated one. I think it's pretty good. Some beautiful guitar work from David and

Mark Knopfler David's last album before he left, and how Linda is came in on the third Dire, Straits album, and well, yeah, welcome your comments on the Ridiculousness of Chess and how it exposes, the transphobic debate for being. Well, I could say shallower than a kids waiting pool, but I think it's some bone dry. Welcome. Your thoughts. And

Comments and queries. If you have them on the other side of the coin, on a better note today. Beautiful story that's being put up by SBS news SBS doing some great work with its original Multicultural Charter and well, I think that it's one of our mind about my queer sibling programs. If I can put it that way on 3, CR will

Love this story. I'm thinking of the wonderful crew from PX. Far new who have a show on Saturday afternoons at 2:30 and I'm sorry, 130. I'll just get my spectacles on and this one's in SBS and I'll put the link into the podcast. And the headline is Camilla's, family didn't fully quote inverted Has get her gender, but watching her perform, they understood. And Camilla joined a beauty, pageant on a whim, and it started much deeper conversations about gender identity and queer joy in the Pacific. She's always loved singing dancing and Performing feels comfortable on stage, but not accepted in private Society. She decided to join a beauty pageant or a week before it started, and she's gone on to win it. She has says, being crowned tonga's 30th. Miss galaxy was one of the best moments of her life. But for the

T Community. It was so much more than one moment. It was a celebration of gender diverse people in Tongan, Pacific, and a recognition of wins gained by years of advocacy of such people. And I do hope I've got the pronunciation of these words, rightly 80 or fuck. Early eighties Tongans who are assigned

male at Birth but have a feminine gender expression is how this article has put it. And Camilla said she knew from a young age which

Which overwhelmingly a lot of trans people do, but it doesn't matter when, you know, or when you begin to be yourself, your journey is valid. That's really really important to understand and she experienced discrimination, she hadn't been fully accepted in our own household. 106,000 people on the island Kingdom, a very religious country. Sadly cross-dressing and homosexuality are legal there. But attitudes are changing thanks to Decades of advocacy.

See and help young people. Camilla says, it would help younger people to feel more at home in society. People go through the struggles, and she gets a chance to perform, and teach people about who she is. And the final night of the miss galaxy festivities, a ball was sold out with people crammed in the car park completely full. That's how you love those sorts of events and her family was there. And now sort of she

Says, her family was supportive because in Tongan culture, we have this time that families come together, nearly every Friday like a kind of reunions. And she said, they accept me because I've showed them what I can really do and I'm capable of and they're proud of me. Hey, that's what we want to hear. And her designs were based on a nod to Tongan culture and Christian religion. Brilliant, beautiful. I mean, this is where we are, you know, where we show that, you know, we cut through the nonsense and show that everyone's everyone and

Can be everyone and the positive about it, this is just wonderful. And you know, this article goes on to talk about the miss galaxy. Founded Joey mate, Ely who founded the Tonga, the it's-- association in 1992, and it has the pattern of Princess Salat, a loophole to Otto of Tonga, which is pretty cool. And so, there's lots of scholarships given. I mean, this is community, this is brilliant.

And this is what we need to build our own Community everywhere. And that's of course, acknowledging the cultural differences and sort of how we need to go about it. And this article also says, from another person that gender diverse and non-binary people in Asia and the Pacific and these are words not in quote, marks from the article have been accepted by their communities for hundreds of years, which also goes to show. Just how much sex and gender binary.

I Western patriarchal concept a bit like to link back to the article in the first segment, which I wanted to quote from our model. We again, here's I think where it all sort of comes together. Our finishes her article by saying, if your argument for excluding trans women is that women have inferior brains than men? I know. Feminist you are point of the patriarchy. And so this just shows exactly as much as knowledge, my privilege as someone who

Is white and neither Aboriginal or Torres, Strait Islander just how much Western patriarchy has stuffed up so many things including sort of various diverse communities around the world and yeah stain surgeon. Shane Sturgis is also a miss galaxy judge and the so CEO of black Aboriginal corporation which represents Aboriginal lgbtiq a plus and sistergirl and brotherboy people in communities, in New South Wales and he acknowledges similarities between, sorry communities in the Pacific and Aboriginal sister. Girls and brother boys. So beautiful article and it's getting truth out there like that. That is a good counter balance at a minimum but also such a positive and proactive thing to do to nonsense that says there's unfair advantages or reasons to ban trans women from playing as women in chess goodness me. So yeah, there's a whole range of Tactics. Still welcome, your thoughts. How do we utilize the stupidity of this world chest band, to start the, or not start to further the sort of reversal of the transphobia and move towards more positivity. Welcome, your thoughts on 3, CR. Let's let's pump it up. I'm getting the coffee into me during music tracks and while I get to listen and play the music track, you get to listen to this one from Midnight Oil. This will pump, it will explode with the Powderworks, 3ci 855 am 3 CR Digital 3, CR dot org, dot U 3 CR on demand out of the pan with Sally.

Oh how I wanted to be paid to Garrett. Rob Hirst gym Moginie Martin Rotsey and that point Peter Gifford later The late great Bones Hillman all rolled into one Midnight Oil wanted to play. All those instruments

and play them loud and paddle Works which was the version from their 1991 album, live album 1992. I beg your pardon scream in blue and it was actually the first minute recorded Midnight Oil track 2 -

Whichever released the first track on their first release. The eponymous album. I'd love that word eponymous, meaning self-titled, album way back in 1978. What a barn burner there's your second wrestling reference for the day at with 23 minutes to go in the program because we can wow Australian music and rock and roll. Light heavy all points in between, see it's sort of non-binary.

In its way. Yep, it's got me thinking listen to that track performance creativity. Now it's what it makes me wonder, you know, sort of how queer people, you know, if we are fighting ourselves inside before we can come out, you know can be creative when maybe we're kind of struggling to be ourselves and, you know, it was wonderful to read that story about

Camilla from once again, on SBS news and how she performed and how it has helped to Blossom. And we could with the family and find will save you a whole authentic self of, you know, let's say in an Ideal World. Yes, we'd all be able to be our authentic selves, in terms of things like sexuality, gender, and other things. But what about

You know, just in terms of what you do as someone who in terms of what I'll call I'm going to define the word work, here is how you spend your time, which is one way to define it that I read, because that then covers voluntary and paid work someone who started my life as an accountant in the corporate sector. I just felt so far removed from where I was and there was no real creativity of any sort. And I don't just mean in terms of performance, but in terms of anything,

In my life at all. And I now, as I came out, took a long way to sort of start coming back and gradually found singing and then tried to stand up. Tried narrative, comedy. And now I'm going more down a musical and other path. And now, it's been really awesome to reconnect with that.

Activity. But it is also why we perhaps can feel a bit frustrated that we don't get to live our whole lives to the fullest and have to take a quote, The Beatles a long and winding road or to borrow from Supertramp though, it'll take the long way home and sometimes. Yeah, there can be frustration and resentment about that. But the thing was, when you can be your whole self in terms of who you are and what you are doing. It's great. Of course sadly.

Creative people don't get paid enough in a society that sometimes under values our creativity, whether that's music or wrestling or anything else and or whatever else musical wrestling or book pageantry or whatever else. And by whether by coincidence or not, I've just had a message come in from kahlan.

No, I don't think it is Kylene has written two members of parliament to talk about the chance, the chance, phobia of Chess, that and said quite rightly those. It to these politicians, there's no basis for chest to make this decision. It's just absolutely incompetent or he's a new word. I'm a mathia a state of ignorance by the refusal to see acknowledge or learn something, which is necessary for understanding.

I think we've got a new word here that will get some people thinking. Yes, transphobes, or a meat. The axe hits you. It's like Sesame Street. There's your word for the day. So, yeah, thanks for this message:. You know, this has sort of really just poured across the stupidity of the turfs and extremists generally. They are extremists and there's just no reason for this and

It's really, it has to end. So, thanks for that. One Kayleen, perfect timing, and tag team, there's the third reference that's enough for now, like, welcome your thoughts. What do we need to do to keep pushing home? The advantage that has been handed To Us by this ridiculous. Chest ban. Welcome, your thoughts. On all the means of communication. In the meantime. Let's

Have a listen to Steven Cummings, and Andrew pendlebury, and track that I've taken to the version of this off. The roller coaster greatest hits album of from of Stephen from the 1990s. And it's called she set

The moment Fringe Festival coming up soon and there's always a mountain of queer performers and queer related themes. Infringe declare my interest. In this year that I will be in a show to be held over in Altona. Watch this piece. Lots of great stand-up.

He has lots going on in the meantime there's monthly queer. Comedy nights at the motley Bauhaus in Carlton, I love seeing that Bauhaus Bauhaus or something like that, but if you want some entertainment and things in the meantime, there's plenty of that as well. Bent TV is on next week, There's Community Support. Declaring my interest that the bisexual Alliance discussion group is on Tuesday night. It's the fourth Tuesday of the month. With possibilities to demonstrate who you are and that you've got to get your registration in for that by the 31st of August as well, and stuff is happening in the third week of October. So with fringes well by gannets busy so there's all sorts of things to be involved in this girl can is highly welcoming of trans women. One. I know at least one trans woman who's been in it and was in the very first edition and it's a great way to

A fitness and, you know, participation on that note, of course, we've got to give a were who to the Matilda's. That Chili's is only only in Australia. Could we call it that? But yeah, well, it's the fourth reference today to quote Booker T. You got to love it. They did an amazing job to get to Fourth. The highest-ranked roundball World Cup, results of any Australian team in history of do for the fifth reference then Gorilla. Monsoon history.

He made here in Australia and they did us proud. They are not just with how far they got. Not just the results, the process, they really have shown the way. And of course a FLW gets underway in a couple of weeks. And I've always found as a spectator, a FLW to be overwhelmingly. Inclusive of queer people. It's always the queer groups regardless of your team, they're cheering on their team. So well, not in the first round for me. I won't be up in

Brisbane that we call actually not a couple of weeks, I should mention, I will be near Brisbane the visiting the, the foo family of origin. So will be a repeat in a couple of weeks on the show.
