We'll keep them as we come and yeah, I opened up with the sports Stephen Cummings upon who listens to the radio and been listening to the radio since we don't know when we'll at least since 1976 when 3 CR formed 48 years old. You should go and we need to keep it going. We need Independent Community radio. I mean just looking at some of the people who've been on the show just in the

Last few months where else not too many other places apart from 3. CR you'd hear about tilde the trans and gender diverse Film Festival. We had the fabulous robe right talking their passion for films, which I think is just enormous and these are the sort of things that are just not likely to get discussion on Commercial media and are not likely to get a lot of discussion in a lot of other media anywhere else.

So really really important that we give voice is like can the fabulous tool the film festival. I've always so you can go see them radio end audio together. That's what we do on 3 CR but there's one thing that I found in my message slot this morning, and I'm going to explain something

which shows how 3 CR works together. Why didn't call it a pigeon hole because pigeon hole has a very animal cruelty thing, which if you're and please support freedom of species for there.

Radio show on a clock and I didn't know that so let's call the message slots, but I had a beautiful message that came in on the 3 CR text line last week when I talked about looking after our elders and seniors and this is the sort of debate the 3 CR at the Grassroots can start. This is just gone right to the heart of 3 CR unintentionally and right I have to say to my heart quote as a younger trans woman born in 1995 have been in Social spending.

Spaces with a variety of Ages in our community some of my younger peers are often ignoring all the members of our community or showing little patience and understanding social spaces seemed Geared for us younglings and it frustrates me when my peers are inclusive of Elders in those spaces. We need to have these conversations with each other and Bridge generational divide so we can become a stronger community.

Sometimes an older person may use language in a way that is a bit uncomfortable for us younger quiz. I find that a respectful conversation between both parties to understand each other's use of language and we form a stronger Bond and understanding of each other Amy Amy absolutely brilliant. And this is why you know, I try to get these conversations going on out of the pan. It's really really important we have them and now we've started it and I think this is a conversation we need to have

Ooh have you know there's two parts to this one. These are the sort of conversations that can happen on unfettered community radio. When you have Community radio that gives that voice that we need and isn't constrained by any commercial or other constraints constraining constraints. That's a really important thing as to the conversation itself. Yeah, look there does seem to be somewhat of a generation gap.

On a few fronts, I mean at times I found that perhaps younger quiz weren't aware that we had no anti-discrimination protections in Victoria until 2000 and perhaps younger cui's don't understand you could have been fired for your job for being gay bi trans lesbian anything under the Igbtiq i+ umbrella just because you were and we didn't have Federal Protection until 2013. It hasn't always been there. So that's one thing where people don't understand and there was unfortunately,

But as it is to talk about a lot of outright intense hate of people and a lot more violence one bit of violence. Of course is one too many one bit of queer phobic violence or any Prejudice violence is one bit too many and these are conversations. We need to have their difficult. It's not a nice topic if that topic is upsetting to you. Please call Q Life which includes switchboard in Victoria and Tasmania 1-800 1845 27

But we need it and the other one on language. I mean, this is a big one in those terms fade in our community and let's call an obvious one here transsexual. Now, you can't say to people you can't use it if that term is someone particularly for someone in the middle or senior cohort is all they had can't tell him to not use it that's their term. And yes, it's a very medicalized term but that's all people had and it's what they Clank clung to.

Claimed to in those times so you can't tell people to stop using it. Everyone's individual term is their own it's just not an umbrella term and probably can't be and that's fair and that's reasonable enough. So this is I really appreciate this note. In fact, I'm going to say this. I'm you I will be framing this above my desk at home. This is just made my day but these are the

conversations that we have on 3 CR at the Grassroots about a whole heap of the issues Queer on out of the pan and other

Quiz shows like in your face and I'm clearing the air which the latter comes up at 3 p.m. Today. But on all the various shows and all the various issues where we hear about things that you wouldn't hear about anywhere else and that's why you need to speak supporting radiothon on 94 1983 double seven put 613 or something as appropriate or donate online at 3. CR dot org dot a you and we've had

Meredith has come in with \$50. Thank you Meredith from quite sure which suburb that is but doesn't really matter. I know who you are Meredith be and thank you so much for supporting the show. So we're underway what we've got a big Target to get ready \$80 in so far and so let's pump up some music some independent music that you again probably wouldn't hear too many other places and for all times.

Take this is Emma wall and not this time 3 CR 3 3 CR Digital 3. CR dot org dot OU 3 CR on demand out of the pan radiothon with Sally 94 1983 double seven.

You can also come into the station at 21 Smith Street Fitzroy during office hours and pay by cash or card. Or simply post your check or money order to PO Box 12 double 7 Collingwood 30 double six, and be sure to tell us which program you'd like your donation to go to 3 CR radiothon 2024 sound on for solidarity.

Sound on that's us 3 CR 855 am it's radiothon 94 1983 double seven and out of the pan needs to get \$1500. We're only just getting underway. So we better get crackin Juliet has donated \$20. Thank you; every bit helps for out of the pan and 3 CR in total. Where else are you going to hear great interviews talking about trans history in

And the fabulous no reason was on the show last November talking about the Australian trans history, which evolved from the Victorian change history and now it's so important again. Thank you Amy. Yes. We do need to acknowledge our history. We don't want to be drown and drown in some of the negative stuff, but we can't ignore where we've come from in our communities and it's really really really important that we do.

So if you want to hear more about Grassroots queer issues, including trans and by which still doesn't get enough coverage no matter what you think then you need to support 3 CR radiothon six 1394 1983 double seven. We need your donations and there's just been I look back at all the people who have been on the show and this just, you know, so many great people doing

Great things you're looking through the last year and re1 Connell fantastic trans academic is was on the show wonderful chat with her so much that she has to offer and that actually leads me to a story that came in in the last 24 hours and talking of Elders and Pioneers which is of interest to me someone who was one of my just as I was beginning to come.

I'm out early trans heroines Lynn Conway. Unfortunately as passed away in the last week or so Lynn Conway has according to this report in the morning hyphen times.com Lynn who was 86 at the time of passing and Lynn story is really really important and things that we sometimes forget. She her death was announced by the University of Michigan and she was on the engineering faculty.

Guilty there until 1998 and she focused on the next Innovation and she's credited with developing a simpler method for Designing microchips in the 70s and other things and she had two degrees from Columbia University. She joined IBM in 1964 after graduating with two degrees as opposed to a musical group that was three degrees and where else you're going to hear bad puns like that, but still

Donate 94 1983 double seven and but seriously in 1968 IBM fired her after she disclosed she was undergoing a gender transition and although the happy ending on that note is you got an apology in 2020 and was awarded a Lifetime Achievement Award and you know the story though in the middle is that Lynn will say in her turn.

Completed her gender affirmation to use today's language completed surgery and then had to start again elsewhere getting work as a data entry clerk, which is obviously a sad waste of skill, but obviously moved up pretty quickly and the story was in 1997. I remember this book again. It was just time of my own beginning my own Journeys in everything really and a reporter looking at the 30th anniversary of the work at IBM after they declared

Pacified paperwork got this call from someone called Lynn Conway. And this reporter could tell Lynn Conway new everything, you know, just it was that inside information. It wasn't just parroting tracks or anything. But the reporter said well, hang on. There's no lint Conway named in any where any of the paperwork how come you know so much about this or words to that effect. And that's where Linda's closed. She was trained. She had to use a term which I know some people don't like if we're talking terms. We don't like but sometimes it is a term that gets used and is

Needed and is necessary for some people she'd been in stealth and I think that these sorts of stories are very very important and it's where Community radio like out of the pan likes 3 CR comes in and you hear them. And so I think we need to honor sort of her her work. It's great to see that IBM recognized her once that's in said quote. She broke down barriers for the trans community and pushed the limits of Technology.

Through Levitt revolutionary workers still impacting Our Lives to this day said nickel Lamar low IBM's Chief priests or Human Resources officer 2014 video on YouTube Conway reflected on her transition saying there's hardly any knowledge in our society even about the existence of transgender identities in the 1960s. I think that's what a lot of that is really hit now because parents who have children are discovering if they let their person blossom into who they need to be. They just often see remarkable flourishing hehe.

So yeah, absolutely, right she'd worked at Xerox the National Science Foundation the defense Advanced research projects agency and on many honorary degrees. So these are sort of Stories We need to tell and Community radio can do it and I did have the pleasure on and on another Community radio station of interviewing Lynn many years ago lovely lovely person rest in peace Lynn and it's these sorts of stories that need to get told but you will only hear them.

The on shows like out of the pan on 3 CR so, please support our radiothon 94 1983 double seven. So yes part of trans history enzyme obviously little sad. She was sort of someone who I think at a time when there wasn't enough visibility of trans role models and God knows I have enough trouble turning my laptop on but she just said here's someone who that says trans people can be anyone you could be a computer scientist you could be

Whoever you could be, you know, I don't know actor who ever else you could just be a trans person and be yourself and I think she gave a great deal of visibility to our communities. So please support a radiothon. We've had another donation come in the fabulous. Debbie. Brandon has sent in \$20 Debbie. Thank you so much and thank you for all your loyal support of out of the pan and 3 CR and your

Additions to community over many years that's 3 CR Community working together, but that's only at this point says me adding up my head \$120. We're not even 10 percent of the way there for out of the pan. We need to get to fifteen hundred dollars. So please support us 94-98 three double seven and help us play our part in the orchestra. That is 3 CR although

I'm very large rock band or Ensemble or whichever. We want to be in the meantime. Let's have a listen to someone who has always supported 3 CR so will support him least. I will his poor Kelly and well, it won't hurt if you donate to radiothon or 94 1983 double seven, but in Paul Kelly's words darling, it hurts 3 CR 855 am 3 CR Digital 3. People are fighting against occupation colonisation and the denial of their fundamental rights the overwhelming majority of crew that's getting arrested American Jews. They using their privilege to defend their Palestinian and Muslim siblings. That's what solidarity looks like. We are with you and you are with us and they do not anticipate and they are completely fearful obvious level of solidarity 3 CR sound on for solidarity. We need your

Support to keep radical voices and issues on the airwaves donate online at 3 CR dot-org.

Indeed. We need your support 94 1983 double seven six one three or similar digits in front. If you're calling from outside of Victoria or Tasmania, and we've got to thank Libby for donating \$80 were beginning to tick along to that Target, but we've still got distance to travel for out of the pan and we need to get to \$1500 and we're sort of well, where are we at? The moment says me adding up in my head running or 200 at the moment.

So we need to get term some momentum going because we're I've I've halfway through the show and my maths which does work reasonably. Well, not that you need maths and

accounting anymore done. Some people don't even need Accounting Standards. There's an accounting joke for you, where else are you going to hear? Accounting jokes on community radio? We're not hot. We're not halfway up to the Target bar over halfway through the show. So we need to get some something quacking along here and

Just some the things that you hear about on community radio that are relevant got an announcement a couple of weeks ago from breastscreens Victoria. There's a rainbow screening session at the burgundy Street Heidelberg clinic on the 19th of June, which is this coming Wednesday for lgbtiq plus people and that's at 158 burgundy Street Heidelberg from 4:30 to 6:00 p.m. And you need to book before the Donald did.

The book before the 12th of June, but I'm sure if this still sessions available they will they will take your call 13 20 50 or you can email Community engagement at breastscreens dot org dot a u and you would like to book a rainbow session. So that's really really important because you know sort of it's an interesting thing in terms of breast screening. It's not just will say cisgender / + or ñ do sex women who need breast screening. We are all

Every human being is susceptible to breast cancer. But my dad you'd hear about that sort of approach on a broader Community station our broader a broader mainstream media. I beg your pardon. And so this is why Community radio that reaches queer people and can be a healthy thing. So a contribute to the health contribute to sound on for solidarity and call in now 9 for 1983 double seven and donate to 3 CR.

And with had a big donation to keep his kicking along and Anton of clients and has put in 100 \$23.90. No less. That's what we like to see. Thanks Aunt on now. We're beginning to tick towards that Target, but we need to sort of tick tick tick tick tick tick because we've got to be going to get so really really important that you support 3 CR on radiothon show days. Who else have we had on?

The show well thinking back a few weeks ago, you know Greg gold. I mean what a powerful conversation again, where else would you find this conversation? Not on a lot of media? Some people can't touch it or it's too much. I'll have to put on ten o'clock at night or something. But Community radio thinking laterally that's what we do. We had the conversation about Greg's fantastic song who gave you permission which was a really really powerful.

On and conversation to have and sort of combination a conversations that we need to have. And so that's where you hear things happening at the grass roots of 3 CR. So make sure that you support 3 CR 9 4 1983 double seven. We need your support to stay on the air and keep providing the sound on for solidarity and radical radio and all those sorts of

Of things that we do and on a similar musical mode, of course last night. We had the fabulous kit Genesis and is so great to see someone like it sort of rolling along so to speak and that's also a part of what 3 CR does supporting artists of all sorts and

Yeah, I'm very very important that we support Grassroots arts. And in the case of this show queer arts and on that note. I'm just going to give congratulations to someone who I think is a fabulous human and it's supported queer arts. And I don't think it's I think it's okay to say does it I wonderful show smarty Arts smart arts on Triple R Richard W received an award during the week and I think that's very well-deserved.

A lovely person who is very much the essence of community, which I think we need in these times. So well done to Richard W a proverbial Good Egg as they say so good to see those sorts of people getting the Kudos they deserve and we've had another donation in Allison fabulous Allison Thorn has popped in tweedles. Thanks Alison. So we're beginning to

Well CM our way to our Target. Well, we have to be metric nowadays, don't we so but we've still got M and a couple of kilometers to go help us take a pace towards a step apace and M whatever you like and donations of two dollars or more are tax deductible to throw co.org. Do you EDD our charity and all that sort of thing, so please support

Us in our Quest and I look at some of the great artists we've had sort of around the Melbourne International Comedy Festival. You know, it's three great varying queer artists Kate and Dave's, you know, Jesse Ryan and Natalie Cairo Natick are oh, sorry all three great, you know sort of three great Community artists

And where else you're going to hear about them. Probably not too many other places. I mean it's hard, you know for people in Comedy Festival to get a Guernsey. So we give them a Guernsey and well done to Dusty Martin on 300 games for three Hunt wearing the Richmond guns you to senior level for the 300th time where else you going to hit Guernsey jokes where else you going to put up with them? That's the diversity of community radio and that's why we are here to bring you all this great information and

Somewhere else. You're going to hear about things like by picnics, which we talked about in March September. We always talk about celebrate by day which often gets overlooked in our communities. So really really important that we get your support so we can keep supporting community on 3 CR very very important indeed. And what else has been in the news. Well where else you're going to hear.

Media strong criticism of the Queensland government for washing out on a whole heap of sort of social justice reforms and unfortunately, it seems that they have and just been absolutely woeful that that the we we just don't seem to get

It that sort of support so, you know reforms to strengthen the Queensland state laws in relation to protecting teachers, but sex worker reform, which is something you don't hear a lot about on any other community radio station, you know, all those sorts of things really really important that 3 CR is still here and putting all the great shows that we do we've had Rebecca from Faulkner has come in with

Fifty one dollars and 63 cents and she's covered the bank charges. Thank you. So we're ticking I'm just doing my calculations. We're at just under four hundred dollars now. So really really important though that we get the I've sort of your support on 3 CR because we all need to keep all the shows going such a great variety of shows doing time discuss in prisons great music shows like him.

Lee fever and in radio and all these sorts of things the diversity of the salaam radio show you heard about all the various diverse voices on the show where else, you know, doing multilingual programming even before and they do I know they're they're SBS, but we did it first and then any new so please support us and we will continue to support you on in community.

You and have the conversations we need to have in the meantime. Let's have a little listen to some Grassroots Community music from The Fabulous Michelle Parsons For Old Times Sake

and from her eponymous album of many years ago. We won't be blaming anyone will we I don't think so. We'll just play the song remember to keep donating 94 1983 double seven and support 3 CR sound on for solidarity.

Yes, indeed 94 1983 007 to support our radiothon sound on for solidarity Freedom Socialist Workers Party has sending \$20. Thank you, Allison and Debbie top of your individual contributions. And any from 7 has sent in \$100. Thank you Annie. That's really really appreciated and the fabulous Michaela from you or has said in 20, so we're up at \$535 were now over a third of the way there.

And I have had a message that come my way my the channels that I've received a donation, but I'm still waiting for it to find its way through into the 3 CR technology. So hopefully that will come through soon and we've had a message in Jenny stuck in bed with a nasty cold. So two weeks listening in yes, there is so much of it going around and if anyone can hear these slightly husky tones.

Tone in my voice. Yes. I'm just on the end of it and they seem to hang around getting better slowly yet with you there Jenny one aspect about Elders in our community that also needs to discuss is the belittling nature of some people toward young people even with good intentions. Yes, look totally agree with that, you know sort of on so many levels this hold are you too young to know anything and you know, you shouldn't be protesting. You should be at school and for Trans young people are you're too young to make a decision about that but not to cisgender people yet totally with you Jenny Burton.

Look, I've made plenty of young people even if we put aside issues or anything like that whose show more emotional awareness Than People three or four times their age. So let's just take

every person for the individual that person is and I think we'll be in a good spot. There is a generational Gap like every group in society when there are stereotypes by media. Yes will media certainly plays into those parts might have to dig out the rod Quantic Neil Mitchell thing there but

It was no longer there. Oh, that's right. He's now bagging off at Dan because Dan wouldn't come on His Radio Show when he had a radio show. I didn't say that. Yes, I did and there's some radical radio for you. If you want to support radical radio, please support us, you know, sort of, you know, things like million Millennials, you know, lazy and shall of course. That's just yeah. It's a generalization. It's a stereotype and you know, that's just not on we don't need any of those communication is key.

Respect both goes both ways. You look at gree with that. I think we can get your respect in all directions is what we need and we don't seem to have enough of it times stay warm and get your flu shots and keep up to date with your covid shots as Jenny wipes her nose for the hundredth time. Yes, don't look at the what the tissues in my rubbish bin at home. Good luck with radiothon will send a donation when better. Thank you Jenny. Please do because we're only officially at \$535.

At the moment and we've got to get 1,500 as I say waiting on confirmation of a couple of donuts and some some coffee as well coffee and donuts always a good thing very very important. So, please support our 3 CR and radiothon and the Fab freedom of species will be next a fantastic program. They've got their trivia contest. So that'll keep you informed.

For the our wall you support them. So really a great show and great support that they give across 3 CR, you know, the gain always moved by the support where times are down on tough the quiz and they will perhaps bring in some queer issues into their show when it wasn't there but there's so much that we talked about on this program that you know, sort of doesn't get Guernsey elsewhere great artists like

Jack Brady and see reward, you know sort of the you know, International Focus like the fabulous guests from Singapore and Nia Bowie again. Thanks to Debian Allison for connecting me in with those Bryce Pace. I'm talking autism fabulous artist Eden. I mean, these are the sort of guests who, you know, perhaps won't get it going to see but they need to start for their work the fabulous my life.

Malaika Mfalme, a wonderful artist of diverse background Sam Elkin talking about his book detachable penises and autobiography of working in a career legal service and the passion of people like Richard Sawada from this until the film festival which finishes up today and that's a reminder that the queer session if there are tickets left. I must admit. I haven't had it quite a chance to check. Yeah sort of

Might still be there, but it's on this afternoon down at the pride Center at 2:00. So these are the sort of things that you'll only hear about on a 3 CR and that's why we are here and there's lots of things coming up during the week to talk about as well. If I can find my email list of things or coming up for the rest of the month might have a bowl of alphabet soup ERM usually happens on the third Tuesday of the month check out their To find out about that possibly trans Cafe nights check out seahorse Club of Victoria. And of course Friday night queer TV Lance TV all happening and Tuesday week is the by Discussion Group at the Grassroots of Creek queer communities 3 CR supporting Community queer Community media and very very important that we do.

And yes, stay warm everyone and I will see you next Saturday. You can find out why this is a face for radio in Bacchus Marsh doors open at 6:00 for Anarchy Rulz to put on by Mayhem Pro Yours Truly will be on the ring it out to microphone with Shane hero for a great wrestling show and see me there bring it along. And yes, so you up in in the marsh for lots of fun and yeah, there's so much there is so much and we need to support our communities in doing it. And that's why 3 CR is here to support Grassroots radio. We need your support to do that. We're still got room for your support on 3 CR on out of the pan, but I get to that Target.

Please and not quite there yet only officially 535 possibly a couple more to come through but haven't got amounts as yet. So, we would love your support on 3 CR 855 am Digital 3. CR dot org dot a you 3 CR on demand and get out of here soon and make way for freedom of speech.

He's and what we take it out with today. What are we going to do? It's time to signing.
